### R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see <http://rmarkdown.rstudio.com>.

You can embed an R code chunk like this<sup>1</sup>:

```
summary(cars) # summary of cars
```

```
##      speed      dist
##  Min.   : 4.0    Min.   : 2.00
##  1st Qu.:12.0    1st Qu.: 26.00
##  Median :15.0    Median : 36.00
##  Mean   :15.4    Mean    : 42.98
##  3rd Qu.:19.0    3rd Qu.: 56.00
##  Max.   :25.0    Max.    :120.00
```

<sup>1</sup> When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document.

### Including Plots

You can also embed plots, for example:

```
plot(pressure)
```

Figure 1: Pressure vs Temperature
